Interscapes is a relatively new showroom in the heart of Westboro, specializing in innovative, high-quality tile and countertop products. Interscapes showcases a wide selection of granite, marble, slate, soap stone, quartz, ceramic, porcelain, metal, glass and mosaics in unique and difficult-to-find colours and sizes.

Join us in their showroom as we will learn more about the latest trends, the services they offer to designers and decorators, the various applications of their products, good practices and what makes their product stand out.

There will also be a Q&A period and members are encouraged to bring questions to the event.
